The New Teacher is a series of short training courses for Myanmar teachers. Each module looks at a different aspect of teaching and takes trainees step-by-step through the learning process. Modules can be taught one after the other or individually, depending on the needs of the trainee or the requirements of the training course. Each module is clear, simple and reflects the approach of other Mote Oo Education books.

Module Two looks at teaching techniques which are useful for both new and experienced teachers. It also looks at how to group students, how to manage your classroom environment and how to deal with classroom management issues.

Series Features:

- Ideas about Learning give the trainee information about important academic research relevant to their learning.
- Multimedia DVD with a collection of short videos showing the main ideas of the course in action.
- Teaching Practicum and Observation to encourage learning after the course has ended.
- Full Myanmar glossary of important technical terms.
