6.	Leadership	35
7.	Sexuality	40
8.	Gender-based Violence	46
9.	Sex Work	54
10.	Conclusion	60

Gender: Issues and Perspectives is an exciting introduction to the field of gender studies. It covers common gender issues in Myanmar, regionally and globally. Every chapter examines its theme broadly, looks at the personal and community consequences, and examines how these themes and ideas relate to Myanmar society. Topics covered include:

- family and community
- work
- education
- religion
- leadership

There are also chapters which focus on more controversial issues, such as sexuality, gender-based violence and sex work.

The book starts with a comprehensive introduction to answer the question 'what is gender?' It concludes with suggestions on how students can activate their learning and try to make a difference to their communities.

Gender: Issues and Perspectives consists of a student's book and a teacher's book with classroom instructions and answers.
