

## CHAPTER 1

# Getting Started

1.1.	Starting Office Excel 2010	10
1.2.	The Improved Ribbon	13
1.3.	Creating a Custom Tab	16
1.4.	Working with Worksheets	18
1.5.	Viewing Worksheets	24
1.6.	Paste Preview Feature	27

## CHAPTER 2

# Working With Data

2.1.	Enter Data Manually	31
2.2.	Fill Data Automatically in Worksheet Cells	40
2.3.	Drag-and-Drop Editing Cells	44
2.4.	Apply Conditional Formatting	48
2.5.	Filtering Data	57
2.6.	Consolidating Data	61
2.7.	Format Text and Characters Cells	63

## CHAPTER 3

# Formulas And Functions

3.1.	Building Basic Formulas	69
3.2.	Using References in Formulas	75
3.3.	Using Names	76
3.4.	Array Formulas	80
3.5.	Creating Conditional Formulas	85
3.6.	Using the Advanced Criteria	87

## CHAPTER 4

# Logical And Math Functions

4.1.	IF( ) Function	91
4.2.	NOT( ) Function	97
4.3.	AND( ) Function	100
4.4.	OR( ) Function	101
4.5.	Nested IF( ) Function	101
4.6.	Math Functions	107
4.7.	Using Trigonometry Functions	112

## CHAPTER 5

# Excel Charts

5.1.	Create a Simple Chart	117
5.2.	Format the Data Distribution	125
5.3.	Using Multiple Axes	128
5.4.	Add Trendlines in Charts	131
5.5.	The Power Curve	136
5.6.	The Running Average Curve	138

## CHAPTER 6

# Statistical Functions

6.1.	Analysing Class's Performance	142
6.2.	Analysing Product Defects	145
6.3.	Analysing Linear Curve Fit	147
6.4.	Forecasting a Future Value	149
6.5.	GROWTH( ) Functions	150
6.6.	LOGEST( ) Function	152
6.7.	Multiple Linear Regression	153
